

New Development ***For Efficiency, Ease and Effectiveness***

Northside has connected with Tuition and Data Services (TADS) to administer our registration and tuition payment processes. We expect that the use of TADS experience and technology will provide a wonderful service, timely information, and reduce the unnecessary piles of hard copy forms that our current process entails. We expect that this useful addition to our office activity will transition smoothly.

This is how it works:

1. TADS will email/mail current families the information of how to re-enroll.
2. Families apply/register on line and can update information at any time (All families will need to apply online).
3. Families enroll by filling out specific student information and financial information.
4. TADS will notify NCS about enrollment and financial status
5. NCS Administrator & Educational Team will finalize with the family a financial plan and submit it to TADS
6. Monies will be submitted directly to TADS – all notifications will come directly from TADS
7. Families and NCS administration will be able to view financial status at any time
8. NCS will stay connected directly with families as special needs arise

Benefits are great as families can have all their information at their computer finger tips.

Hero - Spirit Week

God did great & mighty things!

"The worship was awesome and the speakers - especially the army guy and the Olympian were great. All had their separate topics, but each tied into what it is to be a real hero!"
